Neighborhood Update

Public comment period extended for environmental testing reports

Our June *Neighborhood Update* included information about three reports regarding the outdoor radionuclides survey and indoor radon testing program completed earlier this year on Weymouth Neck. Upon request, we have extended the public comment period for an additional 60 days. The new deadline for comments is September 10, 2009.

The following three reports are available for public comment:

- 1) Radionuclides Scoping Survey and Preliminary Radon Testing Report; Weymouth Neck, Massachusetts – December 2008
- 2) Weymouth Neck Site Final Phase II Radon Survey Report – May 2009
- 3) Weymouth Neck Post Remediation Groundwater Monitoring Program – February 2009

Copies of the complete draft reports are available for review at several locations including online at **www.weymouthneck.com** or at one of the local information repositories in Town Hall or the Tufts Library (46 Broad Street). You may also receive copies by contacting Russ Wilder at URS Corporation in Boston (617-542-4244) or via email at russ_wilder@urscorp.com.

Please address written comments on these reports to: Russell J. Wilder, URS Corporation, 260 Franklin Street, Suite 300, Boston, MA 02110. Again, the deadline for comments is September 10. The final reports will be submitted to the Massachusetts Department of Environmental Protection after public comments have been received and addressed. Thank you.
